Dirk	Schadt	dirk.schadt@gmail.com
Stephen	Wolthusen	stephen.wolthusen@rhul.ac.uk

European CIIP Activities Increase
IST-SecurIST - Development of a Strategic Research Agenda for Security and Dependability R&D
SAFEGUARD, a proposal to improve the survivability of electrical power transmission systems
Some Problems of Critical Information Infrastructure
The Critical Infrastructure Protection Program USA
NISCC: minimising the risk of electronic attack to the UK CNI
Critical Infrastructure Protection: actions to be implemented shortly
Middleware for a dependable info'structure in energy applications
Towards a global security and dependability framework
Assessing Software Safety and Security for Critical Infrastructures
Special Interest Group KRITIS for-m-ed at German Informatics Society
First IEEE International Workshop on Critical Infrastructure Protection

EU funded projects and conferences boost CIIP
Conference announcement: DIMVA 2007 in Lucerne Switzerland
Interdependencies & vulnerabilities of Energy, Transport and ICT
A broad approach to the dependability of IP networks
IFIP CIP conference will bring together international experts to tackle security challenges
First International Workshop on Critical Information Infrastructures Security
Overcoming of CIP obstacles by scenario management
Israel: The creation process of a governmental CERT
NESSI and ESFORs: Paving the way towards secure software services
Towards a holistic metamodel for systems of Critical Infrastructures
Information security surveys as instrument of risk analysis
Israel: The creation process of a governmental CERT
